

Adding Training4Retail to Your Mobile Device

Android

Launch Chrome for Android and open <http://training4retail.com/app>. Tap the three vertical dots and then tap Add to Home screen. You'll be able to enter a name for the new button and then Chrome will add it to your home screen

The icon will appear on your home screen like any other app shortcut or widget, so you can drag it around and put it wherever you like. Chrome for Android loads the website as a “web app” when you tap the icon, so it will get its own entry in [the app switcher](#) and won't have any browser interface getting in the way.

iPhone, iPad, & iPod Touch

Launch the Safari browser on Apple's iOS and open <http://training4retail.com/app>. Tap the Share button on the browser's toolbar —(the rectangle with an arrow pointing upward). On the iPad, it's on the bar at the top of the screen, and on an iPhone or iPod Touch, it's on the bar at the bottom of the. Tap the Add to Home Screen icon in the Share menu.

You can enter a different name for the homepage icon before tapping the Add button. You can then move your icon anywhere you would put an app icon, including in app folders. When you tap the icon, it will load the website in a normal tab inside the Safari browser app.
